

U24N

802.11n 150M USB Adapter

11n
Wi-Fi

The U24N is the IEEE802.11n wireless USB adapter which provides user to launch wireless network at 150Mbps in 2.4GHz band. U24N also compatible with IEEE 802.11b/g wireless network. U24N included a convenient utility for scanning available networks and saving preferred networks that users usually connected with. The security encryption can also be configured by this utility.

U24N

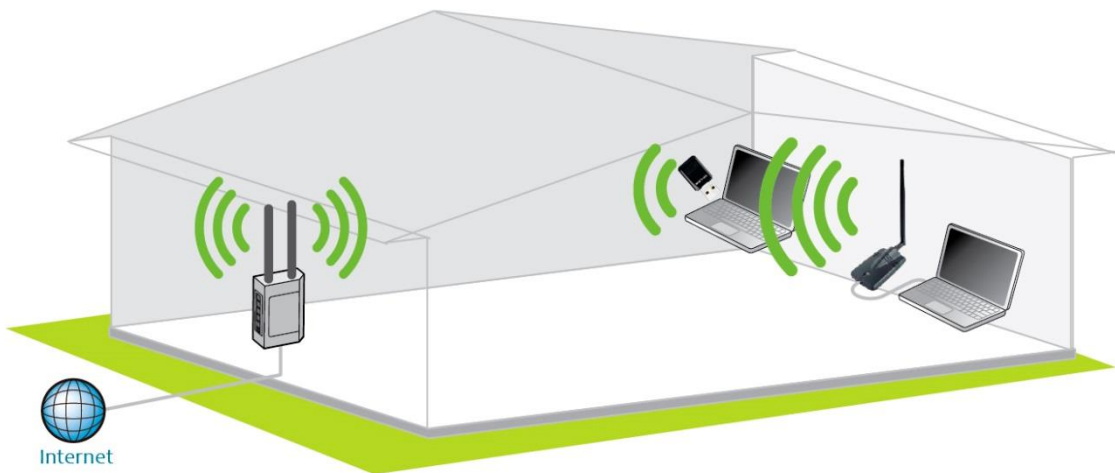

Exceptional wireless signal
Transmission & Reception

High-Gain
5dBi antenna

High Performance
WiFi Chipset

Better Signal

With External 5dBi antenna give the better Signal quality and distance than other WiFi dongle

U24N

Specification

Chipset	Realtek RTL8188RU
Standard	Wireless IEEE 802.11b/g/n
Frequency	2.4GHz
Antenna	Detachable High Gain 5dBi Antenna
Data Rate	802.11b : 1, 2, 5.5, 11Mbps 802.11g : 6,9,12,18,24,36,48,54Mbps 802.11n : up to 150Mbps
Sensitivity	802.11b: - 92dBm 802.11g: -85dBm 802.11n: -76dBm
Wireless Security	WEP, WPA, WPA2, WPA Mixed, WPS, 802.1x
Interface	USB 2.0 mini USB
Supported OS	Windows 2000, XP, Vista, 7, 8 Mac 10.7, 10.8, 10.9 and 10,10 Linux
